Dear Francesco,

Thank you for the excellent food and friendly service you provided to our Bose® Hawaii team dinner last month. Everyone in attendance absolutely loved the two pasta dishes you served, especially the Farfalle in Smoked Salmon Cream Sauce. I heard so many positive comments from my colleagues about your friendly service and accommodating style when creating the variety of grilled Panini sandwiches, made fresh to order on the spot.

It's not often our employees enjoy the opportunity to experience freshly prepared, made to order Italian food. Having lived in Italy in past years, I appreciate the amount of preparation time and planning you obviously applied towards providing our team the delicious and authentic Italian food we were served. The combination of the great food and your entertaining engagement with our team was a winning combination!

Please accept my personal thanks in making our event an enjoyable dining experience and entertaining evening for everyone in attendance.

Sincerely yours,

BOSE CORPORATION
